

Facsys® Freedoc

Evolving to Enterprise Content Management

Free Upgrade!

In the premier issue of the new Solgenia INFORMER you read in the message from our CEO, Bob Binns, that *“We have already started the integration with our Freedoc Content Management System and will let you know when upgrade paths become available.”*

Well, that time is near! Because you’ve been a loyal Facsys® customer, consider this your invitation to **get on the list** to be the first to experience the exciting integration between Solgenia® **Freedoc** and Solgenia® **Facsys**®.

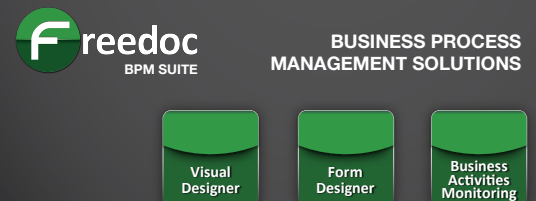

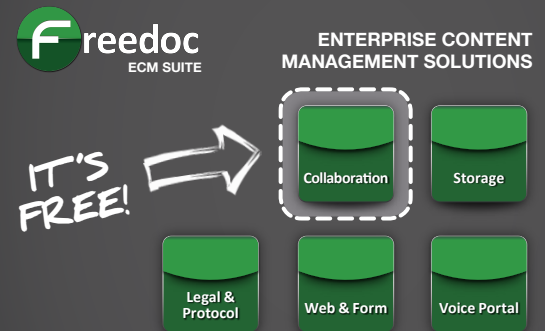

We will be soon be releasing a **FREE** Facsys upgrade that will give your organization a taste of Solgenia Freedoc functionality. We’re convinced that once you’ve implemented the free features, you’ll be asking for more. **And much more is available.**

Flip the page to see all of the features that are included with your free upgrade and get in touch with us today to get your name on the list to receive notification when it’s available for download.

Solgenia® Freedoc Suite

The Solgenia® Freedoc suite is a complete **Enterprise Content Management** and **Business Process Management** solution.

It encompasses the management of the entire information creation lifecycle including versioning, archiving, security, storage, search/indexing, internal and external publication and distribution.

a complete
enterprise content and
business process management solution
